This section of your dashboard allows to you quickly view all of your registered warranties and current service requests. You may also review your registration details, download your terms and conditions and create service requests.

## Actions

-  register warranty
-  arrange for service
-  contact customer support

Using the links in this navigation box will allow you to add new and previously registered warranties to your account. You will also be able to create service requests and contact our customer support team if you need any additional assistance.

**IMPORTANT:** To add a previously registered warranty to your account, the name on your account must match the name you used to register the warranty. You must also be able to match the exact serial number that you previously registered for your equipment. You must also be able to match the phone number or e-mail address associated with the warranty to identify yourself.

If you are attempting to arrange for service for a previously registered warranty you must add the warranty to your account before arranging for service.
